

FBN-150 is a medium strength, thermally stable, black CBN abrasive with added tolerance in use. It favours grinding energy reduction and better surface finish, as well as longer wheel life.

## Properties

- ▶ black
- ▶ medium friability
- ▶ macrofracture
- ▶ angular particle shape
- ▶ good thermal stability

## Applications

- ▶ tool, OD, surface and internal grinding, double-sided plane grinding
- ▶ turbine components, injection nozzles
- ▶ knives, compressor parts, crankshafts

## Bonds

- ▶ resin
- ▶ vitrified
- ▶ metal

## Size Availability

● Available ○ On request
